IRR Phase I	23.16% (PHHC has hired PI Estate Co., Ltd. to make the Project Feasibility Study. Calculation method is by using land in proportion of the construction area in phase 1)

4. Benefits from purchase of land and building

4.1. PHHC will benefit from developing such land and building as Senior Home Project. Senior Home Project is a residence and healthcare for elderly, similar to Jin Wellbeing County Project. However, services and residence of the project are offered at lower price. This will enable PHHC to expand its customer base in senior home business, covering all level of customers. Senior Home Project will be one of the pilot projects developed for target customers with medium income and living in urbanized area.

4.2. The expansion into senior home business by PHHC is in line with THG's direction and objective to provide healthcare services for elderly, which is consistent with change in Thailand demographic profile to higher proportion of elderly. It also helps promoting reputation and awareness of PHHC as senior housing expert.

4.3. The size of land and building is sufficient for development of Senior Home Project which provides both residence and healthcare services.

4.4. Such purchase of land and building will help reducing construction costs as the selling price of land and building is lower than the market price. Hence, construction cost will be lower than constructing a new building.

4.5. The land and building have a high potential for development. Based on survey of surrounding area, there is no other offer to sell land and building that is ready for development. This provides great benefits to THG as purchaser as it will receive revenue before the other projects.

4.6. Such purchase of land and building will reduce period of construction as the existing structure of the building had passed structural testing for strength and safety. The building structure had been improved in accordance with engineer's recommendations and in conditions ready for further development, and the improvement was paid for by the seller. The project is not required to prepare report on environmental impact assessment (EIA) as the project was granted a construction license in August 1992 prior to the enactment of the Enhancement and Conservation of the National Environmental Quality Act B.E. 2535 (1992) in October 1992.

4.7. Size of the land and building allows for approximately 23% green area which is the size of area as prescribed under the EIA. Although such building is not subject to the requirement to prepare EIA, PHHC would like to create an environment appropriate for residents with interests in healthcare and wellbeing. PHHC will also improve the existing canal.

4.8. The high-rise building is located far from the main road with entrance-exit way that consists of commercial buildings alongside the entrance-exit way. The commercial buildings help absorbing noises from the main road and creating suitable environment for residents by separating the residence from the community. They also help making other buildings in the project area, which belongs to others, less visible.

4.9. The land value may increase as the project is located in populated community with educational institutions and department stores within the area. The seller also offers the selling price which is lower than the market price.

4.10. There are neither squatters in the land area nor any disputes relating to the land and building. Therefore, the land and building can be developed without any claims.

4.11. After the development of Phase 1 of the project, PHHC will have approximately half of the total land area remaining. It plans to develop such area as hospital for rehabilitation and physical therapy. The hospital will also consist of designated building for elderly care. Apart from provision of

services to residents of the project, the project will also provide treatments to non-residents with health problems. This will ensure long-term generation of revenue by PHHC.

4.12. In order to guarantee that PHHC will receive the Baht 150 million back if there are cases that PHHC may demand a deposit repayment but the seller is unable to do so, the seller has issued and deposit with PHHC a Power of Attorney under which PHHC may transfer ownership of the relevant land and building by itself without having to obtain further consent from the seller.

4.13. The land and building had been inspected for the land use of building (YorPor.1) under Section 39 bis and had been properly granted permission to construct building modifications (YorPor.4) from the Division of building control, the Department of Public Work, Bangkok and in conditions ready for further development.

1Q18 Management Discussion and Analysis

Summary of significant results for the three-month periods ended March 31, 2018 and 2017

Revenue

THG's revenue comprises of revenue from medical service, patient care, healthcare solution provider and other businesses. Total revenue of 1Q18 was Baht 1,683 million, increasing by 8.4% from Baht 1,553 million in 1Q17 due to revenue increase from domestic hospitals and from staff training, consulting and comprehensive studies from overseas.

Medical service Business: 1Q18 revenue was Baht 1,594 million, increasing by 13.5% from Baht 1,404 million in 1Q17.

- Domestic hospitals comprise of Thonburi Hospital, Thonburi 2 Hospital and Rajyindee Hospital. Total revenue was Baht 1,401 million, increasing from Baht 1,236 million in 1Q17, mainly from higher OPD and IPD patient volume as a result of more OPD clinics and more collaboration with insurance company. In addition, the treatment of complications has increased the rate of service received from patients compared to the same period last year.
- The hospital management business revenue was Baht 138 million, increasing from Baht 116 million in the same quarter of last year. It was mainly from the business expansion overseas, staff training, consulting service and comprehensive studies. The revenue from overseas had generated in 2Q17, and THG signed a Memorandum of Understanding (MOU) with Trung Tin Medical Pharmaceutical Joint Stock Company in this quarter to be a consultant for the construction and renovation and to operate the hospital in Hanoi, Vietnam which revenue recognition was in February 2018.
- The revenue of Excellence Center business was Baht 55 million in 1Q18, increasing from 52 million in 1Q17, mainly from newly opened heart center at Thonburi 2 Hospital.

Healthcare solutions provider

The business comprises of dental equipment and supplies provider, chained drug stores and home healthcare. In 1Q18, the revenue was Baht 83 million, decreasing by 43.5% from Baht 147

million in 1Q17. The decline was mainly due to the high revenue base from the sale of dental equipment in 1Q17 for the project of teaching students' dentists to universities. In 1Q18, there were no projects to be delivered resulting to revenue declined.

Other businesses

It comprises of hospital software development business and project development for healthcare service. In 1Q18, the revenue was THB6mn, increasing by more than 100% from THB2mn in 1Q17 due to an overseas project in software development continuing from 2017.

The revenues from software development business for hospital management, business development project related to medical and health services. In 1Q18, the revenue was Baht 6 million, growing by more than 100% from 2 million baht in the same quarter of 2017 due to revenue from software development with overseas customers continuing from the year of 2017.

Costs

In 1Q18, the total cost was baht 1,205 million, increasing by 2.7% from Baht 1,173 million in 1Q17, which was in line with total revenue growth. The main cost of THG came from the cost of medical services, which is the core business of THG group. The costs of the three businesses can be classified as follows:

The cost of medical services in 1Q18 was Baht 1,152 million, increased by 7.8% from Baht 1,069 million in the same quarter of last year. The cost of medical, nursing, staffing, medicine and medical supplies were mainly increased. The increase of cost resulted from medical services and supplies which fluctuated from revenue, depreciation. THG has constructed more buildings and purchased medical equipment to serve patients effectively.

The cost of Healthcare solutions provider in 1Q18 was Baht 49 million, decreasing by 51.0% from Baht 100 million in the same quarter of the year 2017. The main cost was cost of goods sold and the lower revenue was as same as the lower cost due to there were no dental equipment's distribution for the university project in this quarter.

The cost of other businesses in 1Q18 was Baht 4 million, which was equivalent to the same quarter of 2017. The main result was the staff costs in software development business for hospital management.

Selling and administrative expenses

The selling and administrative expenses, and executive compensation in 1Q18 was Baht 323 million, increasing by 62.3% from Baht 199 million in the same quarter of the year 2017 due to an increase in the personnel expenses, the marketing expenses, as well as the studies and project development expenses.

Financial cost

The financial cost in 1Q18 was Baht 33 million, decreasing by 19.5% from Baht 41 million in the same quarter of the year 2017 due to an efficient loan management. The interest-bearing debt as of 31 March 2018 and 2017 amounted to Baht 4,339 million and Baht 4,079 million respectively, reflecting that the average loan interest rate decreased from 4% to 3%.

Profit

The gross profit in 1Q18 was Baht 478 million, increasing by 25.8% from Baht 380 million in the same quarter of the year 2017. Gross profit margin was 28.4%, increasing from 24.5% in the same quarter of last year, mainly from overseas projects in training and consultant which had high gross profit margin. The net profit margin of the parent company increased to 9.4% from 6.1% in the same quarter of last year. The increase in 1Q18 was mainly from disposal of long-term investment and revenue from write-off of long outstanding tax payable, totaling Baht 81million.

13. Sources of Funding

Premiere Home Health Care Co., Ltd (“PHHC”) shall purchase the land and the buildings from Super P&S Company Limited (the “Seller”) with loans from the parent company (THG). The proceeds are from its operating cash flow **is about 10% and loans from financial institutions is about 90%**. The loan has no conditions to limit the dividend payment of the shareholders.

14. Opinion of Board of Directors

The Board of Directors excluding interest persons is of the opinion that the price of land and buildings is less than the appraised value of 2 Independent Appraisers. In addition, the building’s structure has been confirmed to be adequately strong. The project does not require an EIA. Therefore, the acquisition of land and buildings on Pracha Uthit road from Super P&S Company Limited is beneficial to the development of “Thonburi Senior Home” project in both terms of prices and period of development.

In addition, the board of directors gave additional opinion as follows:

1. Risk of no repayment of deposits

The Board of Directors considered and opined that these following measures are the preventive measure with the highest efficiency to protect the best interest of the Company and Premiere Home Health Care Company Limited, and to prevent the damages from the Company and Premiere Home Health Care Company Limited, as well as to ensure the Company and Premiere Home Health Care Company Limited of the return of the deposit.

(1) The First Portion of the Deposit in the amount of Baht 100 million was not directly placed to Super P & S Company Limited (at the time it was still insolvent), but placed to Mr. Ararm who is an director of Rajthanee House and Land Company Limited, which is a major shareholder of Super P & S Company Limited. Rajthanee House and Land Company Limited thus has a direct interest in relieving from being bankrupt of Super P & S Company Limited with Mr. Ararm deemed as an agent of Rajthanee House and Land Company Limited. Additionally, there is the suretyship agreement with unconditional full compensation between Rajthanee House and Land Company Limited and Premiere Home Health Care Company Limited dated 26 February 2018. Due to the fact that Super P & S

Company Limited was insolvent at that time, it is not capable to enter into any legal transactions or agreements with other persons. Thus, Mr. Ararm entered into the legal transactions in relation to the First Portion of the Deposit for Super P & S Company Limited.

(2) Mr. Ararm entered into an agreement with Premiere Home Health Care Company Limited on the debt payment for Super P & S Company Limited which was repaid with some part of the First Portion of the Deposit in order to relieve Super P & S Company Limited from bankrupt, and the other part was placed with Super P & S Company Limited as the deposit.

(3) Apart from the Agreement made between Mr. Ararm and Premiere Home Health Care Company Limited according to (2), there is the suretyship agreement with unconditional full compensation between Rajthanee House and Land Company Limited and Premiere Home Health Care Company Limited dated 26 February 2018, prescribing that in the case where Mr. Ararm does not return the First Portion of the Deposit in the amount of Baht 100 million to Premiere Home Health Care Company, Rajthanee House and Land Company Limited agrees to make a full payment of the First Portion of the Deposit in the amount of Baht 100 million to Premiere Home Health Care Company. Rajthanee House and Land Company Limited has the registered capital of Baht 700 million, the paid up capital of Baht 700 million, and the total assets of approximately Baht 600 million according to the 2017 financial statements of Rajthanee House and Land Company Limited.

(4) The Second Portion of the Deposit of Baht 50 million was placed with Super P & S Company Limited when it relieved from being bankrupt.

(5) The Sale and Purchase Agreement specifies that both Portions of the Deposit are the instantly Refundable Deposit.

(6) Super P & S Company Limited and Premiere Home Health Care Company Limited have prepared the power of attorney which is one of the best guarantees for the return of the deposit (the blank power of attorney). In this regard, Super P & S Company Limited issued the power of attorney which was made in the acceptable form by the government sector, legally binding signed by the authorized directors of Super P & S Company Limited, with the details satisfied by Premiere Home Health Care Company Limited, In this regard, Premiere Home Health Care Company Limited is

capable of transfer the land by itself without any consents required from Super P & S Company Limited.

The internal legal counsel gave an opinion for proposing to the Board of Directors that the power of attorney was made according to the form which is acceptable by the government sector, legally binding signed by the authorized directors of Super P & S Company Limited, with the details satisfied by Premiere Home Health Care Company Limited, In this regard, Premiere Home Health Care Company Limited is capable of transfer the land by itself without any consents required from Super P & S Company Limited. The filing with the court for an order to transfer the land is not necessary since it is a specific contract and does not conflict with the public order and good morals.

The risk of the revocation of the power of attorney is theoretically low since Super P & S Company Limited is a connected person of the Company. Therefore, the Company and Premiere Home Health Care Company Limited can be ensured that the power of attorney was legally made, is enforceable and will not be revoked without consent from the Company and/or Premiere Home Health Care Company Limited.

(7) In the case where there is the request to return the deposit (including in the case where the EGM of the Company does not approve the entering into the purchase of land and building transaction), Premiere Home Health Care Company Limited is capable of transfer the land by itself without any consents required from Super P & S Company Limited. The filing with the court for an order to transfer the land is not necessary since it is a specific contract and does not conflict with the public order and good morals, according to the opinion of the internal legal counsel. Premiere Home Health Care Company Limited will not be charged for any additional expenses. After receiving the transfer of land, Premiere Home Health Care Company Limited will be able to sell the land and use the money for the return of the deposit of Baht 150 million (the IFA shares the same view). Since the appraised price of the land and building is approximately Baht 340 million, the enforcement of deposit confiscation in the amount of Baht 150 million is within the capacity.

(8) Thus, the placement of the refundable Deposit in the amount of Baht 100 million to Mr. Ararm who is a director of Rajthanee House and Land Company Limited, which is a major shareholder of Super P & S Company Limited (which was being insolvent at that time) and the placement of the

deposit in the amount of Baht 50 million to Super P & S Company Limited, are deemed appropriate with the low risk as detailed above.

2. Necessity and reason of making Baht 150,000,000 or 60% of total purchase price

The amount of the deposit is generally determined by the Seller of the land and building according to the commercial arrangements. The Board of Directors, has thoroughly considered, used the reasonable and fair discretion, and carefully resolved according to the business judgement rule, then opines that the placement of the deposit is necessary and has the low risk because:

1) The land and building price according to the purchase of land and building transaction, is lower than the appraised prices by the 2 independent appraisers. The deposit in the amount of Baht 150 million is deemed as part of the land and building price. According to the Sale and Purchase Agreement, Both portions of the deposit are the instantly Refundable Deposit.

2) If the placement of the deposit was not made, the Seller might consider to sell the land and building to other purchaser. Premiere Home Health Care Company Limited would be suffered from the loss of the business opportunity.

3) Additionally, since the placement of the First Portion of the Deposit in the amount of Baht 100 million to Mr. Ararm was made with the objective for Mr. Ararm to repay the debt by some part of the deposit for Super P & S Company Limited in order to relieve Super P & S Company Limited from being bankrupt, and the other part was placed with Super P & S Company Limited as the deposit. If the debt repayment was not made in order to relieve Super P & S Company Limited from being bankrupt, the land and building would have been sold by the auction. Furthermore, since the creditors of Super P & S Company Limited is a third party, not a connected person, it is non-negotiable and the land and building must have been sold by auction, which would cause anyone to be able to purchase the land and building from the auction and might have caused other entrepreneur to compete with Premiere Home Health Care Company Limited. Moreover, Premiere Home Health Care Company Limited would not be able to purchase the land and building at the price agreed with Super P & S Company Limited which would be the loss of the business opportunity of Premiere Home Health Care Company Limited.

4) In order for the successful of the purchase of the land and building, the Company and Premiere Home Health Care Company Limited have to promptly proceed as soon as receiving the approval from the Board of Directors of Premiere Home Health Care Company Limited and the Company. Therefore, Premiere Home Health Care Company Limited was required to place the deposit before receiving the approval from the shareholders meeting of Premiere Home Health Care Company Limited. This is for the best interest of the Company and Premiere Home Health Care Company Limited.

3. Will the payment of Baht 150,000,000 deposits to the Seller be considered a form of providing financial assistance to a related person?

The first installment: Baht 100,000,000 was paid on 26 February 2018. Due to the insolvency of the Seller, thus, the deposit was placed to Mr. Ararm who is a director of Rajthanee House and Land Company Limited, which is a major shareholder of Super P & S Company Limited. Rajthanee House and Land Company Limited thus has a direct interest in relieving from being bankrupt of Super P & S Company Limited with Mr. Ararm deemed as an agent of Rajthanee House and Land Company Limited. Mr. Ararm therefore entered into an agreement with Premiere Home Health Care Company Limited on the debt payment for Super P & S Company Limited which was repaid with some part of the First Portion of the Deposit in order to relieve Super P & S Company Limited from being bankrupt and the Other Portion paid to Super P & S Company Limited as a deposit (During relieving bankruptcy process, Mr. Ararm repaid the first deposit to Super P & S Company Limited, which is a minor creditor, amounting to Baht 2,013,265, representing 2% of the total deposit amount. The other portion of Bath 97,986,735 was paid to Super P & S Company Limited as a deposit, representing 98% of the total deposit amount. In addition, the first deposit of Baht 100 million was paid to Mr. Aram is a part of the price of land and buildings. Therefore, the date of registration of transfer of ownership of land and buildings to Premiere Home Health Care Company Limited will be considered as the date of completion of purchasing land and building.) The second deposit of Baht 50,000,000 was paid to Super P & S Company Limited on April 10, 2018 (relieving from being bankrupt) as a full deposit. The payment of Baht 150,000,000 is not a financial assistance to all connected persons according to the above facts.

15. Opinion of the Audit Committee which is different from the opinion of the Board of Directors

- None -
